

## Überbauung Rebarten, Liestal

### SHORT DESCRIPTION

Residential and commercial building, divided into two continuous basement levels with three structures on top.

### THE PROJECT

The rising structures will have 5 or 6 storeys and will house flats suitable for the elderly or nursing homes as well as a bistro and service areas. Parking spaces, cellars and technical rooms are located in the basement.

### CHALLENGES

- Tight space conditions, angled floor plan
- Partial waterproofing class DK1 with fresh concrete foil
- Retaining walls type 4.1
