Neubau Schulpavillon Steinmürli

SHORT DESCRIPTION

Six classrooms and nursery rooms for a total of 110 children, provided for the start of the 2017/2018 school year.

THE PROJECT

The two-story Steinmürli pavilion contains six full-sized classrooms (72m^2 each), one small classroom (38 m^2) and a multi-function room (72 m^2). The structure also includes a nursery room, a quiet room and a foyer with coatroom and kitchen, as well as six small group rooms, a teacher`s lounge, four bathrooms and a utility room.

The building was designed in accordance with the cantonal guidelines for school facilities. It meets all local energy standards for new construction. Thanks to a robust, precision-fit exterior shell, the school building provides a quiet, insulated interior space for the students and teachers.
