Reference

Ersatzneubau der Talbrücke Sechshelden auf der A45

SHORT DESCRIPTION

Implenia is building the new six-lane Sechsheldener Viaduct for the highway company by mid-2030 as technical consortium leader. It is 980 m long and consists of 15 sections with a span of up to 84 m. The project volume, including demolition and widening to 6 lanes before and after the bridge, as well as drainage structures, amounts to around 120 million euros net.
