Kantonsspital St.Gallen KSSG - Ostschweizer Kinderspital OKS

SHORT DESCRIPTION

The Cantonal Hospital St.Gallen is not only getting a new, striking face - the modern new building will also support efficient and more cost-effective processes. It will also meet the increased demands of patients in terms of room size, comfort and mobility.

THE PROJECT

Staged renovation of the Cantonal Hospital St.Gallen Mother and Child Center with Children's Hospital of Eastern Switzerland can be realized. Modern infrastructure, which takes into account the provision of medical services, room size and comfort meet the increased demands of patients. An underground car park will create 450 parking spaces in the inner area

CHALLENGES

- Diaphragm walls and cover construction (construction downwards, under slab ceilings pre-concreted on

excavation levels)
- Execution of the work at full operation as well as adjacent to best Hospital buildings
- high demands on logistics
- Building according to the guidelines of the Office for Environment and Energy of the Canton St.Gallen

SUSTAINABILITY

according to the Minergie ECO standard:

- min. 25% RC concrete granulate
