

## Sportpark Bergholz

### SHORT DESCRIPTION

Overall renovation of the sports and recreational facility.

### THE PROJECT

New construction of ice rink and football stadium for Challenge League with 6,000 seats. New construction of indoor swimming pool with wellness oasis, renovation of outdoor pool technology.

### CHALLENGES

- Very short construction time of 17 months
- Sophisticated building services in wellness, indoor swimming pool and ice rink

### SUSTAINABILITY

- The sports park is the first facility with these uses in Switzerland that meets the Minergie requirements and is certified. The short construction period of 17 months reduces emissions in the residential area to a minimum.
- The sports facility is very central, with excellent public transport connections by bus and train.
