

PRESS RELEASE

New contract won in Western Norway – Challenging infrastructure project | Order worth CHF 49 million (NOK 297 million) to Implenia Norge

Dietlikon, 14 November 2012 – Implenia has been contracted by the Norwegian Public Roads Administration to improve the FV 48 and FV 7 roads in Western Norway. This hybrid infrastructure project includes building a roundabout and a pedestrian subway, preparatory work for a new drainage system, and laying a new pedestrian and cycle path along the FV 7. The improvement work covers a total of 7.5 kilometres of road. A 2300 metre-long new road tunnel is also being built. The aim of this work is to take through-traffic away from the centre of the town of Tysse in Western Norway, to improve routes for pedestrians and cyclists, and to optimize the road network. Construction work begins this month, and the roads and tunnel should be ready for use by the end of 2014. The contract is one of the most important orders that Implenia has won in the west of the country so far.

Implenia is Switzerland's leading construction and construction services company. Formed in 2006 from the merger between Zschokke and Batigroup, Implenia can look back on more than 140 years of history in the construction industry. The company brings the expertise of its highly skilled Real Estate, Infrastructure Construction and Industrial Construction divisions under the single roof of a nationally and internationally active company. With its integrated business model and specialists operating in all its divisions, Implenia can manage a building project through its entire lifecycle and deliver work that is economical, integrated and customer-centric. The focus is on striking a sustainable balance between financial success and social and environmental responsibility.

Implenia, with its headquarters in Dietlikon near Zurich, employs around 6400 people and posted turnover of more than CHF 2.5 billion in 2011. The company is listed on the SIX Swiss Exchange (IMPN, CH0023868554). More information can be found at www.implenia.com.

Implenia Norge will be working on road and tunnel projects in the vicinity of the Western Norwegian town of Tysse until the end of 2014.
