### **Implenia wins new road improvement work worth around CHF 30 million** – ASTRA contracts Implenia to handle resurfacing work on several major roads in French-speaking Switzerland

**Dietlikon, 15 May 2013** – Implenia has won new orders from ASTRA for resurfacing work on several sections of major roads in Western Switzerland. The orders, covering a total of 43 kilometres of road, are worth around CHF 30 million. To reduce traffic disruption to a minimum, the work is being done in stages and mainly at night. These constraints and the tight deadline present a steep logistical challenge: at each site up to 40 workers will be laying around 850 tonnes of asphalt each night, producing 850-1000 metres of new road surface a day.

Implenia is Switzerland's leading construction and construction services company. Formed in 2006 from the merger between Zschokke and Batigroup, Implenia can look back on almost 150 years of history in the construction industry. The company brings the expertise of its highly skilled Modernisation & Development, Buildings and Tunnelling & Civil Engineering Sectors, and its Switzerland and Norway Regions under the single roof of a nationally and internationally active company. With its integrated business model and specialists operating in all its divisions, Implenia can manage a building project through its entire lifecycle and deliver work that is economical, integrated and customer-centric. The focus is on striking a sustainable balance between financial success and social and environmental responsibility.

Implenia, with its headquarters in Dietlikon near Zurich, employs more than 6500 people and posted turnover of around CHF 2.7 billion in 2012. The company is listed on the SIX Swiss Exchange (IMPN, CH0023868554). More information can be found at [www.implenia.com](http://www.implenia.com).
