

PRESS RELEASE

Road construction contract for around CHF 96 million awarded to joint venture lead-managed by Implenia – Refurbishment of A6 motorway between Rubigen and Kiesen | Success for Implenia's regional business and evidence of the Group's road building and civil engineering expertise

Dietlikon, 6 October 2014 – The stretch of the A6 motorway between Rubigen and Spiez (RUTS) was first opened for traffic more than 40 years ago. This road is going to be completely refurbished in the coming years. The KiRu joint venture lead-managed by Implenia was awarded the contract to renovate the 10-kilometre stretch of road between Rubigen and Kiesen. The project worth around CHF 96 million (Implenia's share: 25%) will be carried out between January 2015 and November 2016. In addition to the renewal of the roadway and road surface, the project also involves other work, including the overhaul of the civil engineering structures such as walls, bridges, overpasses and underpasses as well as the completion of the noise abatement measures. During peak periods around 120 employees will be working on the site. The new contract is further evidence of Implenia's strong presence in the Swiss regional business and once again proves the Group's proven road building and civil engineering expertise. In line with this, the reasons cited for awarding the contract particularly stressed the high quality of the project concept and the references provided.

Until 2016, Implenia as a partner in the KiRu joint venture will rehabilitate the 10-kilometre stretch of motorway between Rubigen and Kiesen.

Implenia is Switzerland's leading construction and construction services company. Formed in 2006 from the merger between Zschokke and Batigroup, Implenia can look back on approximately 150 years of history in the construction industry. The company brings the expertise of its highly skilled Modernisation & Development, Buildings and Tunnelling & Civil Engineering Sectors, and its Switzerland and Norway Regions under the single roof of a nationally and internationally active company. With its integrated business model and specialists operating in all its divisions, Implenia can manage a building project through its entire lifecycle and deliver work that is economical, integrated and customer-centric. The focus is on striking a sustainable balance between financial success and social and environmental responsibility.

Implenia has its head office in Dietlikon near Zurich, employs more than 6,900 people and generated revenues of around CHF 3.1 billion in 2013. The company is listed on the SIX Swiss Exchange (IMPN, CH0023868554). More information is available at www.implenia.com.
